

Application No. 10/630,883
Amendment dated May 19, 2009
Reply to Office Action of February 19, 2009

AMENDMENTS TO THE CLAIMS

1-51. (Canceled)

52. (New) A marker marking a cavity site from which a tissue sample has been removed during a biopsy, the marker comprising a compressed woven mass of biodegradable material that expands and is detectable by at least two remote imaging detection methods when introduced into the cavity site created when the tissue has been removed, and remains detectable for a first period of time after the mass is introduced into the cavity site.
